**BUREAU OF MILK POOLING
POLICY AND PROCEDURAL LETTER NO. 14**

**CLASSIFICATION OF COTTAGE CHEESE WHEY
AND COTTAGE CHEESE WHEY POWDER**

Cottage cheese whey and cottage cheese whey powder are byproducts derived from the manufacture of cottage cheese.

Accountability for the fluid milk, fluid skim, or fluid cream used in cottage cheese is established at the time of introduction of the raw materials. The residual byproducts are classified in accordance with the classification assigned to the primary manufactured product (see Food and Agricultural Code, Section 61843). Therefore, cottage cheese whey and cottage cheese whey powder are Class 2 products.
